December 14, 2004

Dear Sir or Madam:

This letter will serve as a 30-day notification pursuant to Section 6 of the Dietary Supplement Health and Education Act of 1994 that NBTY Inc. is using the following statements on our Vitamin E-400 with Selenium supplements under the PhysioLogics brand name:

- Supports Antioxidant Health.
- PhysioLogics' Vitamin E with Selenium is a synergistic mixture of two powerful antioxidants that work in combination to promote cardiovascular and immune system health.
- Vitamin E works to stabilize membrane structures in the body, while Selenium acts as a component of the antioxidant enzyme, glutathione peroxidase, which removes hydrogen peroxide.
- Selenium also helps recycle Vitamin E for additional antioxidant support.

The above statements are accompanied by the required disclaimer pursuant to Section 6 of the Dietary Supplement Health and Education Act.

Sincerely,

Angelica S Vrablic, Ph.D.
Manager, Nutrition Research
